Launch Your AI Career

Sprouto's Intensive AI Innovators Program To Launch Your Tech Career

# The AI Wave: Opportunity & Challenge

AI is Reshaping Industries.
Are You Future-Ready?

The demand for skilled AI professionals in eCommerce, SaaS, and FinTech is exploding. Vadodara's ~12,000 tech students have immense potential, but often face a critical hurdle...

The Graduate's Dilemma: Bridging the Experience Gap

Many graduates possess strong theoretical knowledge but lack the **hands-on, practical project experience** that employers desperately seek. This can lead to:

- Resumes that don't capture attention.

- Challenges in applying concepts to real business problems.

- A steeper learning curve in their first job.

Sprouto's Solution: Bridging the Gap with Real-World AI Training & Live Projects

📞 **Get Free Counselling - WhatsApp on 91-9726351115**

The AI Innovators Program

A **4-month, full-day intensive internship** designed to transform ambitious students into **job-ready AI professionals.**

Dive Deep into Practical AI Development:

Go beyond theory. Master the art of building real-world, AI-powered SaaS applications with a focus on:

Core Tech: .NET C#, ASP.NET Core Web API

AI Specialties: RAG Systems, Advanced Chatbots, Image Recognition

Latest Models: OpenAI GPT, Anthropic Claude, Google AI Studio

Cloud Deployment: AWS (EC2, S3, RDS, Lambda)

Product Launch: Experience with platforms like Product Hunt

⬚ Full-Spectrum Learning

From frontend UI/UX to backend logic, database management, and cloud infrastructure – you'll gain a holistic understanding of building and deploying innovative AI solutions.

Unique Proposition: Real SaaS Product Launch

We don't just build projects; we aim to launch them. You'll gain invaluable experience by working on innovative SaaS and eCommerce ideas, potentially for regional markets, and taking them live.

The Sprouto Advantage

Guidance from an Industry Expert: Milan Motavar

Founder, Sprouto InfoSolutions | Ex-Product Manager, Mastercard

"With 15+ years leading global software projects and managing products at Mastercard, I've experienced firsthand what separates successful tech professionals. My commitment is to provide you with not just technical skills, but also the strategic thinking and real-world insights needed to thrive in the AI-driven future. We're building more than a course; we're building careers."

What Sets Our Program Apart?

Live Production-Grade Projects

Work on challenging SaaS applications, not toy examples. Gain experience that truly matters to employers.

Product Launch Experience

Uniquely launch projects on platforms like Product Hunt, understanding GTM strategies.

Cutting-Edge Tech Stack

Master .NET C#, AI (RAG, LLMs), AWS, and modern frontend frameworks.

Direct Mentorship & Support

Benefit from personalized guidance, code reviews, and career advice in our premium office environment.

Mentorship. Innovation. Impact.

What You Will Master

Module 1: Foundations & .NET C# Mastery
Weeks 1-4

- Intro to AI & Modern SDLCs
- C# Fundamentals & Advanced (.NET Core/7+)
- OOP & Design Patterns
- ASP.NET Core Web API Development
- SQL Server & NoSQL Intro
- Git & GitHub/GitLab Best Practices

Module 2: AI Development - Core Concepts & Applications
Weeks 5-10

- Intro to AI Models & API Development
- Vector Databases & .NET Integration
- Working with LLMs (OpenAI, Hugging Face)
- **Project 1:** Building RAG Systems with .NET
- **Project 2:** Advanced AI Chatbots

Module 3: Full-Stack SaaS Development & Cloud
Weeks 11-14

- Frontend Basics: HTML5, CSS3, JavaScript
- Modern Frontend Framework (React/Blazor Wasm)
- UI/UX Design Principles & Figma Basics
- Cloud Computing with AWS (EC2, S3, RDS, etc.)
- Deploying .NET AI Apps on AWS
- CI/CD Pipelines & DevOps Fundamentals

Module 4: Product Launch & Career Development
Weeks 15-16

- Agile, Scrum, & Project Management
- Product Management Basics (User Personas, BRD, SRS)
- Marketing: Product Hunt Launch, Press Releases, Blogging
- Building Your Professional Brand (Resume, LinkedIn, GitHub)
- Interview Prep & Mock Interviews
- Career Counselling & Job Search Assistance
- **Final Project Showcase & Product Hunt Launch**

*Note: Curriculum is subject to adjustments to stay aligned with the industry trends and technologies.*

From Concept to Career

The Live Project Crucible: Where Theory Meets Reality

Our AI Innovators Program revolves around building **tangible, market-relevant SaaS and eCommerce solutions.** You'll gain unparalleled experience by:

- Ideating and developing novel AI-powered tools.

- Creating full-stack applications from scratch for regional or niche markets.

- Collaborating in an Agile team environment, simulating real tech company dynamics.

- Mastering frontend, backend, database, UI/UX, and cloud deployment through practical application.
